THE Mizzou campus continues to evolve over the years, as planners work to meet the changing needs of the University community and the city. It is an important tool in that process. Current Mizzou students probably don’t know that Kuhlman Court, left, the grassy quadrangle that borders Ellis Library, the Arts and Science Building and Brady Instructional Center, was named for a guy who never was a student. The site for Kuhlman Court, right, was once surrounded by the campus. By the time Kuhman Court was demolished in the late 1970s, the buildings were owned by the University and most of them were used for offices.

Science Building and Brady Instructional Center, was named for what was a disaster. The former site for Kuhman Court, right, was once surrounded by the campus. By the time Kuhman Court was demolished in the late 1970s, the buildings were owned by the University and most of them were used for offices.

CHANNELING THE FORCES OF CHANGE

“According to recent campus planner Richard Dodger, a great campus must be able to grow, and thin the needless and put forward for the future by balancing continuity, community and change. Says Ruth Breen, chair of the campus planning committee, “I went through the University to join them for an open forum that will explain how the master planning process works at Mizzou and ask the campus community to share ideas and opinions.”

The open forum will be held from noon to 1 p.m., Monday, March 16 in N208 Memorial Union. Larry Edwards, associate director of Campus Facilities, will provide slides of photographs, maps and drawings that document the evolution of the campus.

“The master plan captures some ideas that are consistent with the University's overall guidance, campus and community over the past 13 years. They included slide shows and status reports on space needs and specific projects. Progress reports are presented annually in open meetings.

This year, the open forum will be held at noon March 16 in N208 Memorial Union. New ideas always are welcome. A central concept of the master plan is to build on Mizzou's traditional campus to create a unified, efficient environment that invites students and conducive to teaching, research and service. It also seeks to strengthen ties of cooperation between the campus and neighboring Columbia.

For his part last week, curator Jack Robinson helped guide the Mizzou Master planning committee since its inception. “Building projects and adequate parking are critical to the campus and the city,” Robinson said. “For a successful total campus, however, they should be developed within a strong, handsome}
Ellis Fischel campus is a five minute drive north of the main campus, just off Providence Road and bordering Interstate 70.

New Buildings Recently Completed:
1. A.L. Gustin Golf Course Clubhouse
2. Parkade Plaza

New Buildings in Design or Construction:
9. Townsend Hall Addition
10. Bike Trail
11. Black Culture Resource Center
12. Critical Care Addition
13. Cornell Hall (B&PA)
14. Devine Pavilion/Dutton Brookfield Addition
15. Ellis Library Addition
16. Eckles Hall Addition
17. Hit Street Parking Structure
18. Life Science Building
19. Research Reactor Building Addition
20. Telecommunications Building Addition
21. Basketball Arena
22. White Campus Center/Brown Replacement
23. Future Academic and Research Buildings
24. Future Greenhouses
25. Future Power Plant Addition
26. Future Instrumental and Recreation Building

Other Potential Construction:
23. Future Academic and Research Buildings
24. Future Greenhouses
25. Future Power Plant Addition
26. Future Instrumental and Recreation Building

Ellis Fischel Campus
1. 1939 Building
2. 1974 Building
3. Radiation Therapy
4. Ellis Fischel Hospital Expansion/Replacement
5. Outpatient Clinics Expansion
6. Allen Building
7. Green Building
8. Possible Future Patient Care or Research Buildings
9. Black Rehabilitation Hospital
10. Future Parking Structure

Some Existing Buildings:
a. Jesse Hall
b. Ellis Library
c. Fine Arts Building
d. Memorial Union
e. Brady Commons
f. Agricultural Building
g. Chemistry Building
h. Physics Building
i. Veterinary Medicine Building
j. Animal Sciences Center
k. Towerbridge Pavilion
l. Black Culture Center
m. General Services Building
n. Hearnes Center
o. Research Reactor
p. Dutton Brookfield
q. Tom Taylor Buildings
r. Nutrition
s. Engineering Building West
t. Leob Hall (Music)–
u. Geology Building
v. Neff Hall Addition
w. Pickard Hall
x. Heinkel Building
y. Psychology Building
z. McCleary Hall

DRAFT
3.1.98

Suggestions and questions should be sent to the Campus Planning Advisory Committee, 113-117 Student Union. Revised edition scheduled for January 1999.
